BME Student Progress Report

All BME students are to complete a progress report with their research advisor at the conclusion of the spring semester. This report is to ensure each student is making satisfactory progress towards their degree. Please return the completed form to the BME office by the start of the following fall semester. Should an advisor indicate that satisfactory progress did not occur, the program director will follow-up accordingly.

General Information

Student: _____

#Semesters Completed: _____

Expected Graduation Date: _____

Research Advisor: _____

Academic Progress

#Credits Completed: _____

Cumulative GPA: _____/4.0

List courses taken this year:

List anticipated courses next academic year:

Research Progress

Describe your research accomplishments from the past year, include data collection and/or analysis, publications, conference abstracts and/or presentations, dissertation progress, etc...

Did you accomplish last year's goals? If not, why?

Describe your research goals for the upcoming year.

Student: _____

Date: _____

For the Research Advisor:

Has the student made satisfactory progress towards their degree?

Yes No (if no, please explain below)

Reasons the student has not made satisfactory progress towards their degree:

Are there any research goals and/or accomplishments not listed by the student that you suggest they achieve next year?

Advisor: _____

Date: _____
