

Leverage Our Talent to Grow Your Business

You Asked, We Innovated

Enhanced Intellectual Property Rights

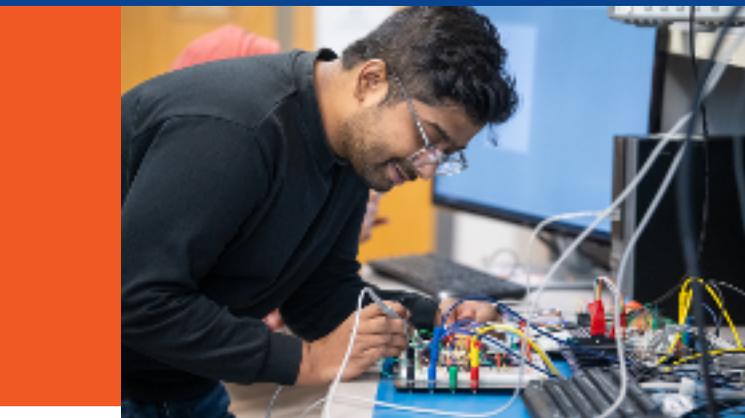

We provide your company with flexible and transparent intellectual property **ownership** and **licensing** options with no hidden fees.

Commercial Insurance & Indemnity Options

In addition to our standard self-insurance, we provide your company with commercial insurance and indemnity options to manage risk.

Flexible Information Security Standards

We recognize that the security of proprietary data and systems is critically important. That's why we provide your company with flexible, clearly identified and auditable information security standards.

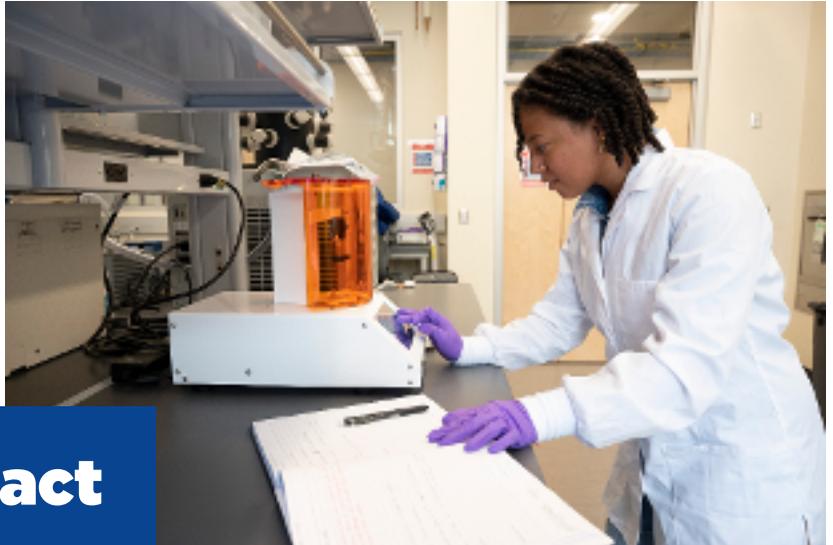

BOISE STATE UNIVERSITY

Focus On Your Needs

The Division of Research and Economic Development challenges the status quo and finds creative solutions to address companies' research and creative activity goals.

We incorporated feedback from small, medium and large businesses to develop agreement terms and conditions that reduce risk and support your company's market competitiveness.

It's another example of us listening to better meet your needs.

Innovating for Impact

Partnering with Boise State's Division of Research and Economic Development provides many advantages.

Our skilled team can connect you with faculty, professional staff and students, as well as technologies available to license from Boise State University's intellectual property portfolio, to support your organization's diverse needs.

Coupled with our interdisciplinary research and creative activities focused on solving Grand Challenges, this means we have the expertise you need!
